- Pedal remembers the last state before power was tuned off (mode, profile)
- Two indicator LEDs to display the active mode
- Successor of Beetronics Octahive
- Power requirement: 9V, 50 mA
- Pedal dimensions: 11.4 x 6.4 x 5.7 cm
- Handmade in California, USA

## Description

Introducing the Octahive v2, one of our legendary bees that has been buzzing since day one! This pedal draws inspiration from the iconic '70s octave pedals, blending vintage tones with modern enhancements.

In “Buzzz” mode, prepare to unleash a ferocious high-gain fuzz that's perfect for low riffage and powerful chords. Enter the mystical “Octave” mode and watch as you're transported to a mind-bending psychedelic wonderland. And here's a tip fit for a Queen Bee: Roll down the “Pre” control, switch to your neck pickup, and watch those beautiful octave harmonics take center stage.

But that's not all! We've matched vintage tone with cutting-edge features to enhance your playing experience. Hold the footswitch to instantly switch from “Buzzz” to “Octave”, giving you complete control over your sonic destiny. And with a quick double tap, seamlessly shift between modes, keeping your creative flow buzzing.

With three footswitch profiles (fast, medium, lazy), you can customize the speed of your momentary switching. It's all about tailoring the pedal to perfectly suit your unique vibe!

The Octahive v2 is here to deliver the sweetest high octave buzz and allow your creativity to soar. Embrace the hive magic and let your sound be heard like never before!
